Chapter 1: Healthcare Quality Management Introduction	1
Healthcare Quality	2
Quality Defined.....	2
Quality Management Defined.....	3
Impact of External Groups	3
Federal agencies and groups	4
Accreditation organizations	5
Professional and consumer groups.....	7
Quality Management System	8
Governing board	9
Senior leaders.....	9
Second tier groups	9
Third tier groups	10
Quality management support services	10
Quality Management Plan.....	11
Summary	15
Student Activities.....	15
Websites.....	15
Chapter 2: Measuring Healthcare Performance	17
Measures of Performance.....	18
Constructing measures.....	18
Measurement categories.....	19
Scope of measurement activities.....	20
Developing Measures.....	22
Select process to be evaluated.....	22
Accreditation and regulatory requirements.....	23
Topics of national importance	24
Strategic quality goals.....	25
Customer needs and expectations	26
Determine what you want to know	27
Translate “what you want to know” into performance measures	29
Establish performance goals	32
Regulations and accreditation standards	32
Organizational quality goals	33

Guideline recommendations	33
Performance in other organizations	33
Summary	34
Student Activities.....	35
Websites.....	35
Chapter 3: Managing Measurement Data	37
Data Collection Strategies.....	37
Locate data.....	38
Automated data sources	38
Non-automated data sources	40
Capture data	40
Identify responsible people	44
Determine frequency and population size.....	45
Data collection plan	46
Summary	46
Student Activities.....	47
Websites.....	47
Chapter 4: Assessing Healthcare Performance.....	49
Performance Assessment	50
Organize and present data.....	51
Tabular reports	52
Graphic representations	54
Evaluating Measurement Results.....	57
Trend analysis.....	57
Trend analysis tools	58
Statistical process control	59
Control chart elements	59
Constructing a control chart.....	61
Interpreting the results	61
Comparing performance	61
Summary	64
Student Activities.....	65
Websites.....	65
Chapter 5: Improvement Projects.....	67
Performance Improvement.....	68
Improvement Models	69
Plan-Do-Check-Act model.....	69

Rapid cycle improvement model	69
Six Sigma model.....	70
Lean improvement model	72
Lean-Six Sigma.....	73
Performance in other organizations	73
Steps common to all models	73
Improvement project reports.....	74
Gantt chart.....	75
Storyboard.....	75
Improvement Project Teams	76
Choose team members	76
Clarify objectives and project focus	77
Team dynamics	77
Forming.....	77
Storming.....	78
Norming	78
Performing	78
Managing team stages.....	78
Summary	79
Student Activities.....	79
Websites.....	79
Chapter 6: Improvement Tools and Techniques	81
Performance Improvement Tools.....	82
Quantitative tools.....	82
Pareto chart	82
Scatter diagram	83
Digging deeper.....	84
Qualitative tools.....	85
Brainstorming	85
Cause and effect diagram.....	85
Affinity diagram	86
Prioritization tools.....	89
Flowcharts.....	90
Workflow diagram.....	93
Force field analysis	94
Selecting improvement tools.....	95
Performance Improvement Techniques	96

Human factors principles	96
Simplify the process.....	97
Standardize.....	97
Reduce reliance on memory.....	97
Improve information access.....	98
Use constraints and forcing functions.....	98
Design for errors	98
Adjust the environment.....	99
Summary	99
Student Activities.....	99
Websites.....	100
Chapter 7: Managing Risk and Patient Safety.....	101
Managing Risk of Harm and Liability	102
Historical overview	102
Patient Safety Improvement.....	103
Measurement.....	104
Incident reporting.....	104
Trigger tools.....	107
Assessment.....	107
Improvement	109
Root cause analysis.....	109
Failure mode and effects analysis	111
Risk Management	114
Risk management activities	115
Risk identification.....	115
Risk evaluation	117
Risk control.....	117
Additional risk management activities.....	118
Summary	118
Student Activities.....	119
Websites.....	119
Chapter 8: Resource Management.....	121
Managing Healthcare Resources.....	122
Utilization Management.....	122
Utilization review	124
Utilization guidelines	124
Acute care UR process.....	126

Health plan UR process	127
Improvement of resource use.....	129
Case Management.....	131
Case management process	132
Care management tools.....	133
IT and case management.....	136
Disease Management	137
Outcomes Management.....	138
Pay-for-Performance	139
Summary	140
Student Activities.....	141
Websites.....	141
Chapter 9: Ensuring Individual Competence	143
Competent Individuals	144
Medical Staff Competency Evaluation	144
New medical staff applicants	146
Privilege requests	146
Qualifications verified	148
Competence and requested privileges evaluated	148
Credentialing recommendation	149
Medical staff reappointment	149
Professional practice evaluation	150
Ongoing review.....	151
Focused review	155
Competency evaluation system support structure.....	157
Credentialing in Managed Care Organizations	157
New applicants.....	158
Reappointment.....	160
Professional practice evaluation	160
Staff Competency Evaluation	160
Pre-employment assessment	161
Orientation	161
Performance appraisal.....	162
Summary	162
Student Activities.....	163
Websites.....	163
