

Investigating Sentinel Events: How to Find and Resolve Root Causes

TABLE OF CONTENTS

Chapter 1	Answers to Common Questions About Root Cause Analysis	1
	What is a "root cause?"	2
	What is a "root cause analysis?"	2
	Does "root cause analysis" replace other improvement activities?	3
	Why should we learn how to do a "root cause analysis?"	3
	Is there only one way to conduct a root cause analysis?	4
	Is an analysis performed only when a significant event occurs?	5
	Must a root cause analysis be performed after each significant event?	6
	How soon following an event should a root cause analysis be done?	6
	Is there a "fast track" root cause analysis?	7
	Should my organization have a sentinel event policy?	7
Chapter 2	What is a Sentinel Event?	9
	Definition and origin of sentinel events	9
	Occurrence screening to identify sentinel events	12
	Value of occurrence screening questioned	15
	Sentinel events in risk management	16
	Today's definition of a sentinel event	18
	How definitions impact your root cause analysis activities	22
Chapter 3	Accreditation Issues	23
	Events requiring intense assessment	23
	Accreditation Watch	25
	How JCAHO receives notice of sentinel events	30
	The Joint Commission's root cause analysis model	31
	How the JCAHO model differs from other models.....	34
	Reporting the root cause analysis to the Joint Commission	38
	Is there life after "Accreditation Watch?"	41
Chapter 4	Sentinel Event Investigation	43
	Sentinel event investigation model	44
	Notification of event	49

Plan investigation	50
Collect information	50
Select people for the investigation team	53
Determine sequence of events	54
Identify the event's causal factors	54
Events and causal factors chart	56
Flow chart	68
Tier diagram	70
Cause and effect diagram	76
Tree diagram	79
Barrier analysis	80
Change analysis	84
Failure mode & effect analysis	88
Critical human action profile	90
Charting unknowns worksheet	92
Force field analysis	93
Select the root causes	94
Compliance/noncompliance root cause analysis technique	96
Root cause analysis check list	98
Root cause analysis software	99
Develop corrective actions and follow-up plan	101
Brainstorming	103
Force field analysis	104
Choosing among optional solutions	107
Follow-up plan	109
Root causes/action plans of case study events	112
Reporting the results	115
Chapter 5 Accelerated Root Cause Analysis	117
Fast-track root cause analysis model	117
Repetitive why analysis	118
Root cause analysis questions	120
Chapter 6 Proactive Root Cause Analysis	123

Ongoing reporting opportunities	123
Situation report	124
Identify "near misses"	125
"Near miss" survey	126
Failure mode & effect analysis/barrier analysis	130
Conduct special studies	132
Evaluate the organizational climate	133
Chapter 7 Policies and Procedures	135
What is your definition of a "sentinel event?"	135
Which sentinel events will undergo root cause analysis?	137
Procedural questions	138
Educate everyone in the sentinel event policy/procedures	142
Additional root cause analysis resources	143
