
TABLE OF CONTENTS

1: INTRODUCTION TO HEALTHCARE QUALITY MANAGEMENT	1
Healthcare Quality	2
Quality Defined	2
Quality Management Defined	3
Impact of External Groups	4
Federal agencies and groups	4
Accreditation organizations	4
Professional and consumer groups	5
Quality Management System	7
Governing board.....	8
Senior leaders	8
Second tier groups	8
Third tier groups	9
Quality management support services	9
Quality Management Plan.....	10
Summary	14
Student Activities	14
Website Resources.....	14
2: PERFORMANCE MEASUREMENT	17
Measures of Performance.....	18
Constructing measures	18
Measurement categories.....	20
Scope of measurement activities	21
Developing Measures	22
Select process	22
Accreditation and regulatory requirements	22
Topics of national importance	24
Strategic quality goals.....	25
Customer needs and expectations	26
Determine what you want to know	27
Translate “what you want to know” into performance measures	29
Establish performance goals.....	31

Regulations and accreditation standards	32
Organizational quality goals	32
Guideline recommendations	32
Performance in other organizations	33
Summary	34
Student Activities	34
Website Resources.....	35
3: OBTAINING MEASUREMENT DATA	37
Data Collection Strategies.....	37
Locate data	38
Automated data sources	38
Non-automated data sources.....	40
Capture data	40
Identify responsible people	43
Determine frequency and population size.....	44
Data collection plan	45
Summary	46
Student Activities	46
Website Resources.....	46
4: EVALUATING PERFORMANCE	49
Performance Evaluation.....	50
Organize and present data	51
Tabular reports.....	52
Graphic representations.....	54
Analyzing Measurement Results	57
Trend analysis	57
Trend analysis tools	58
Statistical process control.....	59
Control chart elements	59
Constructing a control chart	61
Interpreting the results	61
Comparing performance	62
Summary	64
Student Activities	64
Website Resources.....	65

5: IMPROVING PERFORMANCE.....	67
Performance Improvement.....	68
Improvement Models.....	69
Plan-Do-Check-Act model.....	69
Rapid cycle improvement model.....	69
Six Sigma model.....	70
Lean improvement model.....	72
Lean-Six Sigma.....	73
Performance in other organizations.....	73
Steps common to all models.....	73
Improvement project reports.....	74
Gantt chart.....	75
Storyboard.....	75
Improvement Project Teams.....	76
Select team members.....	76
Clarify objectives and project focus.....	77
Team dynamics.....	77
Forming.....	77
Storming.....	78
Norming.....	78
Performing.....	78
Managing team stages.....	78
Summary.....	79
Student Activities.....	79
Website Resources.....	79
6: IMPROVEMENT TOOLS AND TECHNIQUES.....	81
Performance Improvement Tools.....	82
Quantitative tools.....	82
Pareto chart.....	82
Scatter diagram.....	83
Digging deeper.....	84
Qualitative tools.....	85
Brainstorming.....	85
Cause and effect diagram.....	85
Affinity diagram.....	86
Prioritization tools.....	89
Flowcharts.....	90

Value stream map	92
Workflow diagram.....	93
Force field analysis	94
Selecting improvement tools	95
Performance Improvement Techniques	95
Human factors principles	96
Simplify the process.....	96
Standardize	97
Reduce reliance on memory	97
Improve information access	97
Use constraints and forcing functions	98
Design for errors.....	98
Adjust the environment	99
Summary	99
Student Activities	99
Website Resources.....	100
7: MANAGING PATIENT SAFETY AND RISK	101
Managing Risk of Harm and Liability	102
Historical overview.....	103
Patient Safety Improvement	104
Measurement	104
Incident reporting.....	105
Trigger tools	107
Assessment.....	107
Improvement	109
Root cause analysis.....	110
Failure mode and effects analysis.....	112
Risk Management.....	115
Risk identification	115
Risk evaluation	117
Risk control	118
Additional risk management activities.....	118
Summary	118
Student Activities	119
Website Resources.....	119

8: MANAGING HEALTHCARE RESOURCES	121
Resource Management.....	122
Utilization Management.....	123
Utilization review	124
Utilization guidelines	124
Acute care UR process	126
Health plan UR process.....	127
Improvement of resource use	128
Case Management	131
Case management process	131
Clinical paths	132
Protocols.....	134
Standard order sets.....	134
Other point-of-care reminders	135
Disease management	136
IT and case management.....	136
Outcomes Management	137
Value-Based Purchasing	138
Summary	140
Student Activities	140
Website Resources.....	140
9: ENSURING INDIVIDUAL COMPETENCE.....	143
Competent Individuals.....	144
Medical Staff Competence Evaluation	145
New medical staff applicants	146
Patient care privilege requests	146
Qualifications verified.....	148
Competence and requested privileges evaluated	148
Credentialing recommendation.....	149
Medical staff reappointment.....	150
Professional practice evaluation	151
Ongoing review	151
Focused review	155
Competency evaluation system support structure	157
Credentialing in Managed Care Organizations	157
New applicants	158
Reappointment	159

Professional practice evaluation	159
Staff Competence Evaluation.....	160
Pre-employment assessment	160
Orientation	161
Performance appraisal.....	161
Summary	162
Student Activities	162
Website Resources.....	162

About the Author

Patrice L. Spath, MA, RHIT, is a health information management professional with broad experience in healthcare quality and safety improvement. She is president of Brown-Spath & Associates (www.brownspace.com), a healthcare publishing and training company based in Forest Grove, Oregon. During the past 35 years, Patrice has presented more than 400 educational programs on healthcare quality management topics and has completed numerous quality and patient safety program consultations for healthcare organizations.

Patrice has authored and edited many books, book chapters, and peer-reviewed journal articles for Health Administration Press, Health Forum/AHA Press, Jossey-Bass, Brown-Spath & Associates, and other groups. Her recent books include *Fundamentals of Health Care Quality Management, 5th ed.* (Brown-Spath & Associates, 2019); *Introduction to Healthcare Quality Management, 3rd ed.* (Health Administration Press, 2018); *Applying Quality Management in Healthcare: A Systems Approach, 4th ed.* (Health Administration Press, 2017); *Strategic Management of Health Care Organizations* (Bridgepoint Education, 2014); and *Error Reduction in Health Care, 2nd ed.* (Jossey-Bass, 2011).

Since 2004 Patrice has taught undergraduate and graduate online courses on healthcare quality management and patient safety at several schools, including the University of Alabama in Birmingham, Oregon Health & Science University, Missouri Western State University in St. Joseph, Pacific University in Forest Grove, OR and Drexel University College of Medicine, Philadelphia, PA.

Patrice is currently consulting editor for *Hospital Peer Review*, on the advisory board for *Hospital Case Management*, and a past member of the advisory board for WebM&M (<https://psnet.ahrq.gov/webmm>), an online case-based journal and forum on patient safety and healthcare quality that is supported by the Agency for Healthcare Research and Quality. She is an active member of the American Health Information Management Association (AHIMA) and has been a member of the Council on Certification and Council on Accreditation and co-chair of the Data Governance & Analytics Practice Council.
