## TABLE OF CONTENTS

---

<b>About the Workbook</b> .....	3
<b>About the Author</b> .....	4
<b>1: Introduction to Healthcare Quality Management</b>	
1-1: Elements of a Successful Quality Management Effort.....	5
1-2: Information Technology Contributions to Healthcare Quality.....	7
1-3: Factors that Inhibit Improvements in Healthcare .....	8
1-4: Role of Hospital Managers in Quality and Patient Safety .....	8
1-5: Use Publicly Available Performance Data to Judge Healthcare Quality.....	9
<b>2: Performance Measurement</b>	
2-1: Structure, Process, Outcome and Patient Experience Measures.....	10
2-2: Performance Measurement Numerators and Denominators.....	11
2-3: Measure Customer Satisfaction with an Important HIM Process.....	12
2-4: Measures of Process Performance .....	13
2-5: Performance Measures for a Home Health Agency .....	14
<b>3: Obtaining Measurement Data</b>	
3-1: Create a Survey Instrument .....	15
3-2: Quality of Life Measurement Instruments.....	15
3-3: Create a Cycle Time Data Collection Tool .....	16
3-4: Measure Compliance with Practice Guidelines Using EHR Data.....	17
3-5: Query an Online Data Source of Patient Experience Measure Results .....	18
3-6: Identify Measurement Sampling Methods .....	19
3-7: Overcoming e-Measure Data Collection Barriers .....	19
<b>4: Evaluating Performance</b>	
4-1: Create and Interpret a Line Graph .....	20
4-2: Create a Histogram.....	21
4-3: Create a Pie Chart.....	21
4-4: Create and Interpret a Bar Graph.....	22
4-5: Create and Interpret a Control Chart .....	23
4-6: Select Data Presentation Formats .....	25
4-7: Create a Corporate Report of Hospital Performance .....	26
4-8: Analyze Patient Outcome Data.....	27
4-9: Using IOM Quality Dimensions to Identify Improvement Projects.....	28

**5: Improving Performance**

5-1: Charter a Performance Improvement Project .....29  
 5-2: Plan a Rapid Cycle Improvement Project.....30  
 5-3: Manage Project Team Conflict.....30  
 5-4: Measure the Effectiveness of an Improvement Project .....31

**6: Improvement Tools and Techniques**

6-1: Create and Interpret a Pareto Chart .....32  
 6-2: Create and Interpret a Scatter Diagram .....33  
 6-3: Create and Analyze a Process Flowchart .....33  
 6-4: Create a Cause and Effect Diagram for an Improvement Project.....34  
 6-5: Conduct a Force Field Analysis.....36  
 6-6: Recognize Use for Common Performance Improvement Tools.....38  
 6-7: Select PI Tools to Use During an Improvement Project.....40  
 6-8: Improve Process Reliability .....41

**7: Managing Patient Safety and Risk**

7-1: Evaluating Publicly Available Patient Safety Measurement Data.....42  
 7-2: Classify Patient Incidents .....42  
 7-3: Report Patient Safety Measurement Data.....45  
 7-4: Conduct a Root Cause Analysis of a Sentinel Event.....46  
 7-5: Analyze a Root Cause Analysis Investigation.....47  
 7-6: Conduct a Failure Mode and Effects Analysis .....48

**8: Managing Healthcare Resources**

8-1: Analyze Hospital Efficiency Profile.....49  
 8-2: Identify Medical Appropriateness Guidelines .....50  
 8-3: Use Criteria to Evaluate Appropriate Use of Healthcare Services .....51  
 8-4: Identify Measurement Data for Outcomes Management Initiative .....53

**9: Ensuring Individual Competence**

9-1: Select Cases for Physician Peer Review.....54  
 9-2: Identify Sources of Physician Performance Expectation Data.....58  
 9-3: Document Medical Staff Peer Review Results.....59  
 9-4: Measure Non-Licensed Staff Member Competence.....62
